

Inkwell Data Announces Public Availability of Altior Industrial IoT Platform as a Service (PaaS)

PADOVA, ITALY and LONDON, UK – November 19, 2025

Inkwell Data, a pioneer in driving digital transformation through innovative data solutions, today announced the public availability of its Altior Platform as a Service (PaaS) offering. Altior, a field-tested and industry-grade technology, is now available to system integrators, ISVs, device and network OEMs, and enterprise users, enabling them to deploy industrial IoT services with high availability on commodity hardware infrastructure.

Altior PaaS is a white-label platform that allows the development of value-added services with a comprehensive API and software development kit (SDK). The SDK includes Altior Studio, a No Code/Low Code system and application designer, and the Aegis security framework, making it easy to integrate the platform into ISO 27000 and GDPR-compliant organizations. Over 100 devices and networks digital twins are included in the PaaS offering, enabling immediate implementation.

"We are thrilled to make Altior PaaS available to the market," said Robert Falzon, CEO of Inkwell Data. "This **major release of our flagship product** is a testament to our commitment to providing innovative solutions that drive digital transformation in the industrial sector. We are excited about the opportunities Altior PaaS presents for our partners and customers, enabling them to harness the power of industrial IoT and drive business growth."

Altior PaaS is designed to minimize the Total Cost of Ownership (TCO) for partners, with components that can be deployed on private and hybrid cloud or on-premise, without requiring hyperscaler or public cloud infrastructure.

For more information about Altior PaaS and how it can help your business thrive in the industrial IoT space, please visit <https://inkwelldata.com> or contact info@inkwelldata.com.

About Inkwell Data

Inkwell Data is a trusted partner for organizations seeking to unlock the potential of their data and drive business innovation. With a focus on delivering cutting-edge solutions, Inkwell Data empowers its customers to thrive in a rapidly evolving digital landscape.
